Specialists in Engineering Solutions for the Recycling and Material Handling Sectors

The Anaconda DF Range of Mobile Tracked Scalping Screens are Heavy Duty Screens that have been developed specifically to suit a variety of applications.

The DF410 is one of the most robust and reliable Scalping Screens available on the market. Fully equipped with a 10' X 4' Screen Box the DF410 has the longest Screen Box in the compact screening segment. The DF410 also has 3 stockpiling conveyors meaning this versatile scalping screen is capable of dealing with any application in which it may be placed.

The DF410 can be shipped in a 40' container keeping shipping costs to a minimum. Set up is simple and the machine can be running within 20 minutes of delivery. Commissioning is aided with the hydraulic controls to position and guide all the Conveyors and Screen Box.

Anaconda stock a full range of spare parts as a display of our commitment to provide a dedicated and responsive service to all our customers.
